#### Current Volunteer Commitments

- SIOP: Member, 2008 – Present
  - My Child Matters Review Board

#### **Candidate Statement**

I have gained so much from APHON, with phenomenal educational opportunities and numerous collegial relationships. I have seen many changes in nearly 32 years of

membership. I have served APHON previously on the Board as Secretary, Director-at-Large, and as the current position for which I am applying, Nominating Committee Member. I have contributed to APHON as an editor of two editions of our textbook, served on a variety of committees, and held leadership positions at the local level, including local chapter President. I have extensive connections with active leaders within APHON. However, I know that, for a successful future, the organization needs up-and-coming leaders. I feel my experience promotes the ability to discern qualities in colleagues who have great potential to contribute to their professional organization. If elected, I will relish the chance to network with APHON members in-person (hopefully) and via remote means to seek out and foster nurses who want to increase their dedication to APHON. I hope to have the opportunity to serve this organization that is so dear to my heart once again.
