Additional Qualification for Office

I have had active volunteer commitments throughout my education and career including Race for the Cure team leader, board member and volunteer coordinator for Hinote's Heroes, Medical Advisory Committee member and volunteer PNP at Roundup River Ranch, and volunteer with Morgan Adams Foundation. I love to engage others to find

their passion and get connected to volunteering. I want to make it engaging, fun, and meaningful.

Current Volunteer Commitments

- Roundup River Ranch
 - Medical Advisory Committee Member
 - Medical Volunteer
- Hinote's Heroes
 - Board Member

Candidate Statement

My name is Molly Hemenway and I am applying to be a member of the Nominating Committee for APHON. I have been a pediatric nurse practitioner in both Neuro-Oncology and Experimental Therapeutics Programs for 15 years at Children's Hospital Colorado. My special interests include camp for children with special medical needs, partnering with non-profits to improve research in pediatric cancer, palliative and hospice care, neurofibromatosis, and disseminating knowledge to others. Last summer I was a nursing session co-chair for clinical presentations for the International Society of Pediatric Neuro-Oncology. Engaging and interacting with my peers in neuro-oncology and facilitating the sharing of their knowledge was very rewarding. Several years ago I was encouraged by my sister to turn my creative outlet of photography, card making, and jewelry creation into a business. I have navigated a new field and created and grown an Etsy shop. I love a new challenge and learning how to positively impact what I am involved in. The Nominating Committee role has been interesting to me as a tool to support and grow APHON for years. I have very strong organizational skills, creativity, and strive for excellence. APHON has been a wonderful organization to learn and grow through for years and I would be honored to serve on the Nominating Committee to help other pediatric oncology and hematology nurses share their knowledge and passion with our community.
